

THREONINE BY-PRODUCT

SINGLE CELL PROTEIN

AMINOGRAME ON PRODUCT g/100 g:

Cystine: 0,79%	Phenilalanine: 1,69%
Proline: 1,60%	Hystidine: 0,72%
Threonine: 10,44%	Triptophane: 0,54%
Valine: 2,59%	Leucine: 3.49%
Glycine: 3,51%	Serine: 2,61%
Thyrosine: 1,52%	Isoleucine:2,33%
Lysine: 2,37%	Aspartic acid: 5,03%
Glutamic acid: 9,59%	Methionine: 1,10%
Alanine: 4,84%	Arginine: 2.47%

ANALITICAL VALUES

Protein	70.00%
Ash	3.80%
Moisture	7.10%
Fats	3.50%
Fiber	0.10%
TVN	0.80g/100g

✓ High digestibility of both protein and AA

✓ High quality protein source in competitive price

✓ High crude protein level: min.68%

✓ High Threonine live:10.70%

Threonine by-product is a single cell protein obtained from the production of the amino acid L-threonine. It is a NON -GMO plant-based protein concentrate with high digestibility.
